## Who We Are

---

NetWeb provides enterprise business solutions, innovative products and professional services to clients worldwide. We deliver enterprise solutions for the web, mobile and cloud using a variety of mainstream and emerging technologies. Our forte is a unique blend of strong product development and IT service capabilities that enables us to provide highest levels of reliability, quality and innovation. Two decades of successful experience, a large pool of highly competent professionals, strategic R&D locations, mature ISO 9001:2015 certified processes, flexible business engagement methods and a strong management team enables us to consistently deliver high quality software products to our clients.

**CliQue™** Connect–Collaborate–Coalesce  
**Creating Profitable Alliances**

CliQue™ is our mantra to create strategic, mutually beneficial partnerships with our customers. It represents our flexible and agile business model backed with sound processes to help us deliver reliable, value adding services. The model enables us to make a rapid transition – from connecting with customers to ultimately coalesce with them as a seamless extension for working together towards achieving business objectives.
