

PARK ON THE FLY

Park On The Fly is a solution to help efficiently deal with one of the most painful issues faced today by people- Parking.

Park On The Fly provides infrastructure support for the parking ecosystem. It helps drivers find parking and help property owners sell parking.

Park On The Fly enables parking owners to maximize their revenue while providing a superior parking experience for drivers. Any lot owner, individual or retail owner can offer their available parking lots for a charge to the public. The solution allows a very comprehensive, yet flexible mechanism to offer and setup the schedule for the availability of parking spaces by lot owners. This provides an efficient utilization of their empty parking spaces and provides revenue generating opportunities.
